SAN JUAN

	OPTION	COMPOUND	TYPE	SPEC	DESCRIPTION	QUANTITY PER RIDER
FRONT	DIABLO SUPERBIKE		SLICK NHS			
	A	SC1	SOFT	STANDARD	**Standard solution in soft compound, 120/70 size.** It represents the slick evolution of the development solution Y0898. It was the most successful front solution throughout the 2020 season.	8
	B	SC2	MEDIUM	STANDARD	**Standard solution in medium compound, 120/70 size.** It offers a similar grip to the SC1 product, but allows better wear resistance and greater stability at medium-high temperatures.	7
	DIABLO WET		INTERMEDIATE			
	I	SCW	INTERMEDIATE	STANDARD	**Intermediate solution** between the dry tyre and DIABLO Rain. This tyre has a pattern with a smaller number of grooves than the wet tyre and a compound halfway between a slick and a wet solution which enables it to work well in wet surface conditions or drying asphalt with already dry lines.	2
	DIABLO RAIN		RAIN			
	R	SCR1	RAIN	STANDARD	**Standard solution** for rain with a grooved tread ideal in conditions of heavy rain or on thoroughly wet surfaces. The compound used for this product guarantees maximum performance in the wet both at cold temperatures and at medium-hot temperatures.	6
	TOTAL FRONT OPTIONS:			4	TOTAL NUMBER OF FRONT TYRES PER RIDER:	23
REAR	DIABLO SUPERBIKE		SLICK NHS			
	A	SCX	SUPER SOFT	STANDARD	**Standard solution in super soft compound, 190/60 size.** Presented in Misano, the super soft solution dedicated to the Supersport class, like its counterpart in the Superbike class, offers more grip compared to the standard soft compound.	6
	B	SC0	SOFT	STANDARD	**Standard solution in soft compound, 190/60 size.** This solution presents a soft SC0 compound improved to give maximum level of performance. It was the most successful rear option throughout the 2020 season.	6
	C	SC1	MEDIUM	STANDARD	**Standard solution in medium compound, 190/60 size.** The solution in SC1 compound has been developed to offer the right compromise between constant performance and wear levels, thanks to a wide range of operating temperature.	4
	DIABLO WET		INTERMEDIATE			
	I	SCW	INTERMEDIATE	STANDARD	**Intermediate solution** between the dry tyre and DIABLO Rain. This tyre has a pattern with a smaller number of grooves than the wet tyre and a compound halfway between a slick and a wet solution which enables it to work well in wet surface conditions or drying asphalt with already dry lines.	2
	DIABLO RAIN		RAIN			
	R	SCR1	WET	STANDARD	**Standard range Rain solution in 200/60 size** with a grooved tread ideal in conditions of heavy rain or thoroughly wet surfaces.	6
	TOTAL REAR OPTIONS:			5	TOTAL NUMBER OF REAR TYRES PER RIDER:	24
