

	OPTION	COMPOUND	TYPE	SPEC	DESCRIPTION	QUANTITY PER RIDER
FRONT	DIABLO[™] SLICK NHS					
	A	SC1	SOFT	RANGE	Standard solution in soft compound, 120/70. Evolution of the development solution A0460, used and appreciated by the riders during the 2021 season. It improves the feedback at maximum lean angle and gives more support in corner entry.	6
	B	SC2	MEDIUM	RANGE	Standard solution in medium compound, 120/70 size. It offers a similar grip to the SC1 product, but allows better wear resistance and greater stability at medium-high temperatures.	6
	DIABLO[™] INTERMEDIATE					
	I	SCW	INTERMEDIATE	RANGE	Intermediate solution, 120/70. This tyre has a pattern with a smaller number of grooves than the wet tyre and a compound halfway between a slick and a wet solution which enables it to work well in surface conditions which is still wet or drying.	1
	DIABLO[™] RAIN					
	R	SCR1	RAIN	RANGE	Standard Rain solution, 120/70. It has a a grooved tread ideal in conditions of heavy rain or on thoroughly wet surfaces. The compound used for this product guarantees maximum performance in the wet both at cold temperatures and at medium-hot temperatures.	4
TOTAL FRONT OPTIONS:				4	TOTAL NUMBER OF FRONT TYRES PER RIDER:	17
REAR	DIABLO[™] SLICK NHS					
	A	SCX	SUPER SOFT	RANGE	Standard solution in super soft compound, 190/60 size. Presented in 2021 in Misano, it is the super soft solution dedicated to the Supersport class that, as its counterpart in the Superbike category, offers more grip compared to the soft solution.	4
	B	SC0	SOFT	RANGE	Standard solution in soft compound, 190/60 size. This solution presents a soft SC0 compound improved to give maximum level of performance. It offers more consistency over race distance and increases the operating range.	6
	C	SC1	MEDIUM	RANGE	Standard solution in medium compound, 190/60 size. The solution in SC1 compound has been developed to offer the right compromise between constant performance and wear levels, thanks to a wide range of operating temperature.	4
	DIABLO[™] INTERMEDIATE					
	I	SCW	INTERMEDIATE	RANGE	Intermediate solution, in the size 190/60. This tyre has a pattern with a smaller number of grooves than the wet tyre and a compound halfway between a slick and a wet solution which enables it to work well in surface conditions which is still wet or drying.	1
	DIABLO[™] RAIN					
R	SCR1	RAIN	RANGE	Standard rain solution, in the 200/60 size. New standard range solution for rain conditions, known in the 2021 season as the X1251 spec and used also in the Superbike class. It features a compound intended to offer more grip in wet conditions even at low temperatures.	5	
TOTAL REAR OPTIONS:				5	TOTAL NUMBER OF REAR TYRES PER RIDER:	20
