PIRELLI CONFIRMED GLOBAL SECTOR LEADER IN S&P GLOBAL SUSTAINABILITY ASSESSMENT

Milan, 21 October 2022 – Pirelli is confirmed global Leader in Sustainability in the ATX Auto Components sector in S&P Global’s 2022 Corporate Sustainability Assessment, obtaining the highest score in its segment.

The results published today by S&P Global – valid for inclusion in the Dow Jones Sustainability indices – highlight Pirelli’s score of 85 points (+8 points above 2021, as already announced on 26 September 2022) as the highest in the ATX Auto Components sector and significantly higher than the sector average of 24 points.

Pirelli achieved top scores in many areas including Governance and Due Diligence in the context of **human rights**, management of **natural resources** and reduction of **CO₂** emissions. The company also obtained maximum points in the areas of **innovation** and **cyber security**, as well as for the completeness and transparency of its **social and environmental reporting**.

Marco Tronchetti Provera, Executive Vice Chairman and CEO of Pirelli, commented: *“The result obtained in S&P Global’s sustainability assessment rewards Pirelli’s path towards sustainable and resilient growth. The company’s work in this direction reflects our values and constant commitment to supporting the United Nations Sustainability Goals”*.

S&P Global will announce the updated composition of the Dow Jones Sustainability World and Europe Indices, in which Pirelli is included, on 9 December 2022.
